

CHECK POINT SECURITY AS A SERVICE BY FORESITE

THE CHALLENGE FOR SMALL BUSINESS

Growing quickly and safely can be difficult for small businesses. As a small business owner, you worry about survival, and as you grow to a medium size you worry about dozens of issues; from expanding your product line, to meeting sales goals, and from protecting your customers to beating your competition to market. You want a secure network, but how many people can you justify in your IT department? Security does not have to mean a large IT staff.

But it's difficult to find competitively-priced, scalable solutions that will grow with your requirements, giving you access to the right skills at the right time.

Check Point and Foresite are here to be your security services arm. We give you the access to our experts, and the depth of resources you need to thrive in today's turbulent threat landscape.

YOUR SOLUTION

By combining cost-effective leading edge security technology with managed security services that focus on excellence, you get a complete service solution, providing peace of mind by ensuring the security of customers critical IT perimeter and core infrastructure.

Your security infrastructure will be monitored and managed 24/7/365 by our security experts providing you full insight in to any actions performed through our security portal.

Monitored conditions of interest will be investigated, evaluated, addressed, and remediated, providing your business with full transparency into all the actions taken.
