

SECURITY SUBSCRIPTION BUNDLE DATASHEET.

THE CHALLENGE FOR SMALL BUSINESS

- 70% of Data Breaches happen to small and medium businesses, there is a major need to better secure businesses assets!
- SMB has the same needs as large enterprises with protecting data against Security threats; however most SMB businesses struggle with the resources or expertise to handle Security and Compliance initiatives on their own.
- It is difficult to find competitively priced, scalable solutions that will grow with business requirements, giving SMB businesses access to the right skills at the right time.

YOUR SOLUTION

- By combining cost-effective leading edge Security technology with managed Security services, SMB customers get a complete Security solution, providing peace of mind by ensuring the security of critical data assets.
- 24x7x365 monitoring and alerting of your Security infrastructure by security experts.
- Monitored conditions of interest will be investigated, evaluated, addressed, and remediated, providing SMB businesses with full visibility in to any actions performed through a web customer portal.
- Check Point and Foresite are here to be your security services partner. We give you the access to our experts, and the depth of resources you need to thrive in today's turbulent threat landscape.
